SNOW & INCLIMENT WEATHER DISCLAIMER

Dear Shipper,

Casey Movers commits to moving year round through rain, snow or other storms. We understand that in some events, real estate closings can rely on the vacancy of the property you are selling. For this reason, you can rely on us to be there for you on your scheduled move date.

In the event of incliment weather, we recommend re-scheduling if possible. Please note that availability on our schedule is limited--we will do our best to reschedule your move date if that is an option. If we are to move you in the snow, please note that our insurance requires the shipper (that is you) to clear your driveway and walk-ways; and, all roads leading up to your property are to be clear. Remember, safety always comes first. In the event of a state of emergency, we will not be able to service your move.

When it comes to rain and snow, please note that movers will always have a supply of moving blankets available to them to protect your furniture. Please note that blanket wrapping in the home can make maneuvering through doorways difficult/not possible so it MAY have to be done on the truck in some instances. Please note that shrink-wrapping can be done, but will certainly add to labor and material charges from any initial written estimate that did not account for this service. We will need to know 2-3 days in advance if shrink-wrap is requested for your move. It is the responsibility of the shipper to let us know if shrink-wrapping services are requested.

Please note that incliment weather will usually result in higher labor charges than any initial estimate that did not factor in snow or rain. As our services are by-the-hour, there is no way around this.

Sincerely,

Casey Movers
